SUMMARY

Meta and Google Ads + full-funnel growth specialist for D2C and e-commerce brands. Rebuild fatigued accounts and scale them profitably — took a fashion D2C account from 1.9× to 3.2× ROAS with revenue scaled over 6× in 60 days, and ran a seasonal campaign at 6.57× ROAS that sold the brand out of inventory. Beyond media buying, I build the systems that make marketing efficient — a custom CRM, automated reporting, and lead-gen funnels. Deep specialization in AI-augmented marketing (1,500+ creatives), and experienced leading an 8-person team, fully async for international clients.

CORE COMPETENCIES

Paid Media: Meta Ads, Google Ads, Advantage+, full-funnel strategy, audience research, creative testing, profitable scaling

CRO & Funnel: Landing-page optimization, offer design, conversion-rate optimization

Analytics & Attribution: GA4, Meta Pixel & CAPI, attribution tooling, performance dashboards

AI, MarTech & Systems: AI creative production, custom CRM, automated reporting, n8n workflow automation, Claude / LLM workflows

Project Management & Leadership: Agile / ClickUp workflows, cross-functional team management, creative direction, client management, async delivery

PROFESSIONAL EXPERIENCE

Growth Escalators — Lead Media Buyer & Creative Strategist

June 2023 – Present | Remote (US, UK & international clients)

- Rebuilt a fatigued fashion D2C account from the ground up — tight ICP, fresh creative testing across angles and hooks, disciplined budget pacing, and landing-page CRO — lifting ROAS from **1.9× to 3.2×** and scaling revenue **over 6× in 60 days**, profitably; account still running.
- Architected a seasonal Valentine's campaign that delivered **6.57× ROAS** through the peak window and sold the brand out of inventory before the season closed.
- Run both Meta and Google Ads across a portfolio of D2C, e-commerce, personal-brand, and agency clients; produced **1,500+ ad creatives** with systematic testing to find winners fast and avoid fatigue.
- Built AI-augmented marketing infrastructure — a custom CRM, automated reporting, and n8n automation — compressing reporting from hours to minutes and tightening the creative → ads → data feedback loop.
- Led an **8-person cross-functional team** across creative, development, and sales; retention-focused, scaling and holding accounts on sustainable economics, fully async for international clients.

SYSTEMS & AUTOMATION BUILT

Custom CRM — **React + PostgreSQL**: In-house CRM centralizing client management, lead pipelines, and reporting — replaced manual tracking and improved team efficiency.

Automated Reporting — **Claude API**: Pipelines that turn raw ad data into client-ready reports automatically.

Lead-Gen Funnel — **Next.js**: Self-liquidating-offer funnel with integrated payments and Meta Pixel / CAPI tracking.

Outbound Automation — **n8n**: Email-sequencing system with lead enrichment and automated reply tracking.

SELECTED CLIENT RESULTS

Paraiso — **Fashion D2C**: ROAS lifted 1.9× → 3.2×; revenue scaled 6×+ in 60 days, profitably (account ongoing).

Sable — **D2C · Seasonal Campaign**: 6.57× ROAS through the Valentine's window; sold out inventory before season close.

Odra Organics — **Organics / Wellness D2C**: Scaled and held long-term on sustainable CPA and profitable economics.

Swarnsootra — **Jewellery · Singapore**: International D2C account; AI-generated content replaced physical photoshoots, cutting cost and turnaround.

Dr Dheeraj Dubay (Personal Brand) — lead-gen at scale · **Elixzor Media (Agency)** — scaling partner.

EDUCATION & CERTIFICATIONS

B.Tech, Automobile Engineering (2020–2024) · **Google Project Management** — Professional Certificate
